

CONFIDENTIAL

JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Friday - 29 December 1972

1. (Unclassified - GLC) Cecil Presson, on the staff of the Senate Internal Security Subcommittee, called and said that they had received a quantity of the publication "The Abuse of Psychiatry for Political Repression in the Soviet Union" in excess of their order from GPO and wondered whether our order had been shipped to the Subcommittee by mistake. I checked with Acquisitions who said that we have not received our order and arranged with Presson to pick up a supply from the material sent to him.

2. (Confidential - GLC) Hand-carried to Ralph Preston, House Appropriations Committee staff, a draft statement for Chairman Mahon's use in discussing on the floor of the House Mr. Helms' departure and Dr. Schlesinger's appointment. Preston said the suggested floor statement which they had requested was "excellent."

I also left with Preston General Walter's letter to Chairman Mahon on the motor pool garage facility. Preston said this too was just what he wanted--brief and to the point.

3. (Confidential - GLC) Left with Bill Woodruff, Senate Appropriations Committee staff, General Walter's letter to Chairman McClellan on the Agency motor pool garage facility. Woodruff said this was fine. He had not yet collected the material he wants to return to us for destruction and said he would get in touch with us next week on this.
